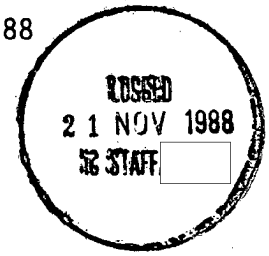
DIRECTOR OF CENTRAL INTELLIGENCE
Intelligence Community Staff
Washington, D.C. 20505

C011-6-SR

ICS 3145-88
16 November 1988



25X1

MEMORANDUM FOR: See Distribution

FROM: [redacted] 25X1
Special Assistant to the Director

SUBJECT: Concept of Operations: An Approach for Intelligence Support to Counterdrug Activities

1. The accompanying approach is updated for your information. The objective of this working level game plan is to address the complexities of the foreign drug target as we conceptualize it, and project capabilities, methodologies, and resources needed now and for the next decade. This is the third update. Over the past several months the first two working copies were passed to various operational and analytical elements in the drug enforcement and intelligence communities. [redacted] 25X1

2. This multidiscipline, building bloc approach is general in nature to allow for flexibility, but detailed enough to provide the basis for sound planning in any operational intelligence upgrade. It is a strategy for the use of national and tactical intelligence resources geared to our needs and those of our allies in this war on drugs. [redacted] 25X1

3. This is an approach, not an operational plan with resource commitments. Our intent is to develop a consensus on how we are going to get target smart, what resources and methodologies we will use and how we will apply them. For your information, the resultant resource implications have and will continue to be addressed by the Program and Budget Office, Intelligence Community Staff. For the first time, in some instances, there are programmatic workups for the outyears. Those program elements highlighted are subject to continuing review and update. [redacted] 25X1

4. Your thoughts and comments are most welcome. [redacted] 25X1
